

BioHaven® Floating Duck Blinds

VEGETATED WITH NATIVE PLANTS

Planting is made easy with pre-drilled holes ready for you to drop vegetation in. After 2 growing seasons, brushing your blind will be a thing of the past as the vegetation roots into the matrix material continuing to grow year after year.

DEPLOYMENT AND POSITIONING

Due to its lightweight material and floating design, the duck blind can be towed or moved to various locations.

CAMOUFLAGED

Camouflaged into its natural surroundings, the duck blind enables the hunter a closer first shot.

ADDITIONAL FEATURES:

- 3 or 5 Man Blinds
- 2 Dog Kennels with Ramp
- Benches for Seating
- Gun Holders
- Hand Rails for Entry
